

In-text Citation Examples

As Bernard (1957) argues, experimental medicine is foundational.

Urbanization trends are discussed by Lee (2021) and Lee (2021).

Deschenes et al. (2000) provide a computer file resource for supervised release studies.

According to World Health Organization (2022), global health is a major concern.

Mystery remains about the unknown year (Doe n.d.).

The gender significance of class is explored in Szelényi and Olvera (Forthcoming).

Goodman analyzed latent structure in 1947 (Goodman 1947b; Goodman 1947a).

See (Sampson 1992, pp. 63–93) for a discussion of family management.

Several works address this topic (Brown 2022; Kao and Thompson 2003; Smith 2020b).

See dataset Charles (1990) for more details.

See U.S. Bureau of the Census (1960) for census data.

See American Sociological Association (1997) for the ASA action alert.

For example, some classic studies (e.g., Abbott 1981; Phillips and Zuckerman 2001) have discussed this topic.
