

## In-text Citation Examples

As Bernard (1957) argues, experimental medicine is foundational.

Urbanization trends are discussed by Lee (2021) and Lee (2021).

Deschenes et al. (2000) provide a computer file resource for supervised release studies.

According to World Health Organization (2022), global health is a major concern.

Mystery remains about the unknown year (Doe n.d.).

The gender significance of class is explored in Szelényi and Olvera (Forthcoming).

Goodman analyzed latent structure in 1947 (Goodman 1947b; Goodman 1947a).

See (Sampson 1992, pp. 63–93) for a discussion of family management.

Several works address this topic (Brown 2022; Kao and Thompson 2003; Smith 2020b).

See dataset Charles (1990) for more details.

See U.S. Bureau of the Census (1960) for census data.

See American Sociological Association (1997) for the ASA action alert.
